This process will take place in the beginning of June. The whole process will be observed by the President of PASOK and everyone who takes part will have the opportunity to exchange views with him. Participants do not have to be a member or voter of PASOK to take part in the poll. Nor do participants need to have any political knowledge. We are interested in including a representative sample of all residents in the municipality.

In case you are selected by a scientific process, would you be interested in taking part in this deliberative poll? The process will be covered by journalist Pavlos Tsimas, for his show "Erevna" on MEGA TV channel, as well as by other television and radio stations.
